

DOG MEAT FREE INDONESIA

Whilst only a minority of Indonesians consume dog meat – in fact it is estimated that just 7% of the population nationwide ever consumes dog meat – the trade threatens the health and safety of the whole country

Unregulated movement of dogs spreads rabies

Dog Meat And Rabies

Mass vaccination of dogs will help eliminate the fatal virus

Public Safety

Rabies positive dogs are being moved to supply highly-populated cities that are often dog meat eating hot spots

Immense Animal Suffering

Once stolen or collected from the streets, the dogs are taken on a journey tightly packed into small cages with no food, water or rest. They are often sick and injured. They are all terrified...

Illegality Of The Trade

The dog meat trade operates in breach of existing laws and regulations pertaining to human health and animal welfare; and must be stopped!

Dogs Deserve Better

Dogs deserve the right to be protected from cruelty, and to be recognized as companion animals
